

Heavy Duty Staple Gun

Definition

Staple guns were created for the construction industry. Extremely effective and durable, they are built to be reliable and withstand wear and tear on-site. STS Staple Guns are used to affix a myriad of objects, such as bar chairs, to wood, hardboard, plastic and other materials.

KEY FEATURES

- Ideal for post-tensioning.
- Rugged steel body and magazine for durability.
- Lightweight.
- Drives heavy-duty 6 mm staples.
- Galvanized and Stainless-Steel Staples available.
