PPC Aluminium Foil Tape

Reinforced Yellow Core

PPC Aluminium Foil Tape

Reinforced Yellow Core

AVAILABLE SIZES

48mm x 50m - Box Qty: 24

72mm x 50m - Box Qty: 16

KEY FEATURES

- Australian made to meet Australian industry requirements.
- Tested & Certified – Green Star – Low VOC emitting-less than 0.5mg/m2/hr
- Coated with an aggressive synthetic adhesive
- Hand tearable for ease of use
- Reinforced for high tensile strength
- Highly resistant to abrasion and puncturing
- Maintains effective bond through a wide temperature range
- Conforms well to corners and irregular surfaces
- Joining overlaps on vapour control layers of foil faced insulation

TECHNICAL DATA

Backing	Laminated Polyethylene Film Polyethylene Fibre Mesh, Aluminium Foil
Tensile Strength	575 N/25mm
Adhesive Type	348 grams
Adhesion to steel	0%
Elongation at break	80 N/25mm
Temperature Range	-15°C to + 85° C
