AGNI-Straps®

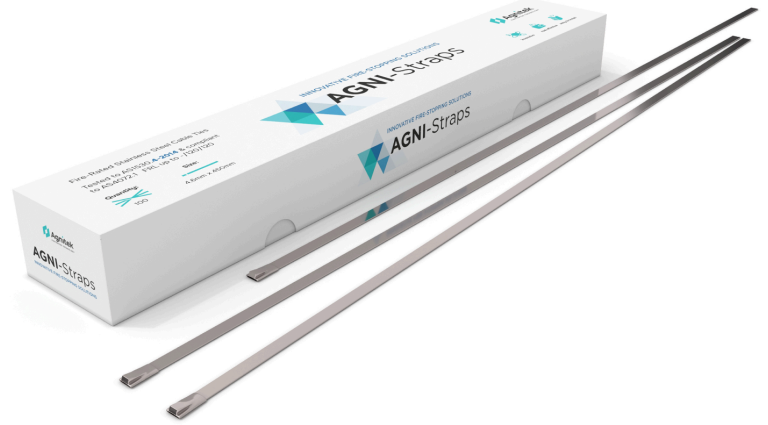

*Fire-Rated Stainless Steel Cable Ties for
Secure AGNI System Protection*

PRODUCT DESCRIPTION

AGNI-Straps are stainless steel cable ties designed and manufactured specifically for Agnitek fire-rated products like M-Wrap, AGNI-Sleeve, and AGNI-Shield. The length of AGNI-Straps is 450mm.

AGNI-Straps were tested and fire certified in an IANZ-accredited laboratory for fire resistance testing across various AGNI-Plumbing and AGNI-Electrical applications.

PRODUCT CHARACTERISTICS

Among the tested systems with AGNI-Straps, you'll find:

- AGNI-Plumbing systems: PVC-U, PEX, PEX-AL-PEX, PB, HDPE, PPR pipes, waste pipe configurations, and more.
- AGNI-Electrical systems: data and TPS cables, AC bundles, conduits, and more.

AGNI-Straps are suitable for various electrical installations in addition to passive fire protection.

Tested to AS1530.4-2014

Compliant with AS4072.1

Wide Application Scope

Easy-to-Install
